

## SEO For Small Businesses In One Hour

This book is intended for small business owners who want to quickly learn the basics of SEO without going into long complicated explanations. This ebook will cover everything a small business needs to get started in SEO including; How to work with Web content management platforms such as Wordpress. How to decide on your all important keywords. How get the most from your site title and other meta data. Creating business pages for Facebook, Google Plus and Twitter. Top tips on how use social media to promote your business on the web. This book isn't designed to teach how or why SEO works but just show small business owners what they need to do to get started and get the basics of SEO right quickly.
