

Overview synopsis of the book, 'The Yesterday House Time Merchants' This work of science fiction has a main character that has become disenchanted with his life as a widowed businessman in his middle years. After losing touch with his closest friend, he receives a phone message regarding him. Upon investigation discovering he has relocated, so to speak, to a new life. This life is in Victorian England of 1885. The secretive company the representative is from send a select group of clients to a new life there. The story reflects a hopeless man developing New Hope and a new life in the past. It follows his steps, and explores the decision to leave his life in the present. Upon arriving he begins to become a part of the life in the past of London and reunites with his old friend there. The story proceeds to see him settled, and developing a mindset capable of a fresh life there. He is confronted by a few flashbacks to his old life, but puts the experiences off to the stress of the move. He encounters a woman, in the course of his life that is almost a double for his dead wife from the future. And the story leads him to discover the ancestry of his late wife and his family connection to the people of his new time frame. He is challenged to keep interference with events in his new time to a minimum, and is slowly becoming settled into the lifestyle he has chosen. The story is brought again to the conclusion by a deranged man from the past discovering the truth, and his inability to deal with it, results in his travel to the future, and the entire operation becoming endangered. The main character has to act quickly to prevent a major paradox from occurring. How would you repair the current life that you live and see as a failure? Would you travel to a different reality to escape depression and boredom? Or, could you adapt to life in a past world easily? The story raises questions about the ability to interact with the past, without jeopardising the entire future. It allows a reader to step into the role of time traveller.
