

A Step Moms Guide to Remarriage Survival: How I learned to Overcome the Stepmother Stigma and become a Spiritual Mother

When a man and woman decide to marry, they do so with happily ever after in mind. What if they have both been married and have children from former marriages? The stakes are infinitely higher, and the path to marital bliss is not so smooth. This book is born of the blood, sweat, tears, and prayers of a step mom who had the best intentions, and headed straight down the road to hellish trials with them. This is a book on how hard lessons turn a confident woman into a pile of goo at the feet of a mighty God, who takes her by the hand and gives her the tools she needs to overcome the stigma and the stress of being a step mom. This is a work in progress!!!
