

In the biography of Jesus one is struck by a remarkable fact. In reading through the four Gospels, and the Jewish historian Josephus, who had quite a bit to report on Jesus, as well as the Roman historians of the first century, Svetonius, Tacitus, and Pliny the Younger, who all mention Jesus with varying degrees of interest, one notes that remarkable fact mentioned above: there is no information whatsoever on the life of Jesus from the age of thirteen to his mid-twenties. So what happened in those lost years, when a boy started to develop into history's most outstanding figure even if you are not a practicing Christian, and much more than even that if you are? A long and deep-seated interest, backed up by research and leavened by imagination has emboldened us to tell that story.
