

## Ocean World! (Maurice Pledger Sticker Book)

Get ready to explore the ocean! Join Dewey Dolphin and his friends and find out about the many different creatures living above and below the waves. Featuring the beautifully detailed art of Maurice Pledger, this sticker book has over 200 reusable stickers for kids to complete activities on each page. Match animal shapes or make your own pictures of the magnificent ocean world. These aren't just sticker books but also interactive storybooks. Each page features easy-to-read text and asks children simple questions after they read about the various animals that inhabit above and below the ocean. Kids will learn about creatures found around coral reefs such as sea urchin, abalone, sea slugs, and starfish as well as animals who live in the frigid climate of the North and South poles such as walruses, penguins, gray seals, and polar bears. There are also plenty of beautifully illustrated ocean scenes for children to create their own work of art. Filled with fun facts, information, and high-quality oversized stickers, Ocean World is truly a learning adventure!
