

T. Rex vs. Crocodile (Bizarre Beast Battles)

Tyrannosaurus rex was one of the largest meat-eating dinosaurs that ever lived. It could chomp up to 500 pounds of meat and bone in a single bite! While crocodiles don't compare in size, they're some of the largest carnivores alive today and one of the most feared man-eaters. This cleverly crafted volume invites readers into the worlds of these predators and asks them to envision what would happen if these beasts went head-to-head in the ultimate beast battle. Color photographs, dynamic illustrations, and imaginative text brings the action to life.
