

## The Elegant Elephant

Parents and Grandparents, if your little one has ever gone to the zoo or circus to see an elephant, they will always remember it. Children are fascinated by how elephants eat and where they live--but there are all sorts of interesting facts about elephants that can amaze even adults. Did you know that Elephants can live to be over 70 years old? That only one mammal cant jump the elephant? Elephants have a slow pulse rate of 27. For a canary it is 1000! Lots of elephant facts are included in this short e-book that is very easy on the eye. Look for the pages with the pick-out-the-elephant activity for very young children. So cuddle up with your favorite small person for five minutes and enjoy!
