

Frozen Dinners (Strange Matter)

Max is trapped. A freak snowstorm has him sealed in his uncles mountain cabin, along with his brother Mark and sister Teresa. But Uncle Shoe is missing, and no ones coming to rescue them. Should they take their chances and hike down the mountain to safety? Max doesnt think so, especially not since he found those huge tracks in the snow. Then theres that inhuman howling coming from the woods. Now barricaded behind the cabin door, Max thinks he knows what it might be. Hes found some old reports that the Abominable Snowman, the yeti, was sighted there fifty years earlier. Has it returned? The kids arent taking any chances. Theyve boarded up the cabin, because as much as they want to get out . . . Something else wants in.
