

How to Text Girls: Texting Skills That Will Secure a Date with Her (The Dating Series Book 9)

Get your texting skills down and know how to come across as cool and attractive through your texts. Free Bonus eBook inside. This is the 9th book in The Dating Series. The Dating Series is a comprehensive collection of eBooks that addresses multiple aspects of dating advice for men. This includes meeting women, striking conversations and initiating interactions, creating attraction, building a connection, asking them out, texting skills, dates, physical escalation, conversation skills, and developing relationships with them. The Dating Series also discusses the mindsets that you need to have as a man in order to become attractive to women, the behaviors you should adopt, confidence and self-esteem, and the overall vibe that you need to have whenever you're around women. Apart from the rich practical advice in the books, the underlying theme of The Dating Series is that when you yourself become a more attractive man, you will effortlessly attract more women into your life. Texting is something that often gets guys. They have a good interaction with a girl, but then they mess up their chances by sending a bad text, texting too early to try to get a date, or too late and she's lost the attraction by then.

While texting is not the end all be all of your game with women, it is an important thing to know how to do. This eBook teaches you what attractive texting is, and what texts kill your chances with women. You'll also get examples to illustrate the lessons, but the book focuses on the mindset you should have and how to convey and project a cool, non-needy, and attractive vibe through your texts that will make you stand out among other guys who text her. You will learn: Common misunderstandings that guys have when they get a girl's number and reasons why girls flake. What to do when you immediately get her number. Whether it's better to text or call. How long you should

wait before asking her out. What types of texts NOT to send because they kill the attraction. What are attractive texts. How to keep the vibe simmering through texting when it takes some time until you meet for a date (a few days up to a week or two). How to lead and take initiative in setting up a date. How to prevent your embarrassment and wasted time if she flakes and doesn't show up for the date. And much much more. While the book stresses that texting is not above actually becoming an attractive guy, which is at the core teaching of The Dating Series, it is still a skill you need to have. If you don't, you're likely going to botch your chances with some girls. You've done a lot of hard work up until now in attracting her, asking her out, and getting her number. You do not want to waste all that investment and hard work by sending one wrong text. Avoid all those future missed opportunities by getting this eBook today and learning in advance how to approach this whole texting enigma. You'll know what to do and what NOT to do. When it comes time to text her, you'll be better prepared and far more likely to secure a date with her. Click the orange Buy Button above to download this book.
