

Helicopter Operations at Sea: A Guide for Industry

Guidance on preparation for a survey, including a review of requirements, safety aspects, equipment and details of procedures and reporting on the different types of survey. This book provides guidance on survey preparation, including a review of requirements, safety aspects, equipment and details of the procedures and reporting for different types of survey. It incorporates, where appropriate, more detailed information on results of research in the areas of corrosion, defects and repairs, ultrasonic gauging and the strength of corroded structural items.
