

HUMANITY IS READY FOR DEEP SPACE Year2 Book7: Preparations for Planetary Disaster (Year 2: The Knowledge Seeker Workshops)

Book 7 - the last of the second Year of workshops is an introduction to the World of Deep Space, and a primer school course on building the spaceship. Starting with Workshop 75 entitled Humanity is Ready for Deep Space the first half of this workshop covers the Health teachings delivered in the previous workshops. This had a purpose he revealed later in the workshop because the space ship construction is based on the same rules as the Body of the Man, and he shows us an Airbus 380 made out of nuts and bolts and aluminium. But the structure of the Plasma craft is much easier so simple its right in front of our eyes, MK says, however we cant see it because of the blinkers keeping us out of phase with the Plasma. Its OK as all you need is CO2 GANS which puts out an extremely peaceful plasma field and therefore creates peace everywhere it goes like in all the health pens and health pads millions of them constructed around the world and having remarkably rejuvenatory effects on plants, animals, and humans. It seems it is only a peaceful vibration needed in the GANS of CO2 around the waist to bring a barren womb into fruitfulness. It is the vibration of Peace that does this however you have to be careful because this Peaceful Vibration also induces a kind of nymphomania effect and the husband cannot keep up! MK in later workshops makes jokes about the grandmas who will become mamas and they will be laughing all the way to the maternity unit! And its the Peace of the Plasma that has this rejuvenatory effect. The plasma technology is powerful, allowing Freedom from the Planet, but its potential can only be tapped when in a vibration of Peace and Fellowship with the Human race and the planet. So those who try and make a weapon out of it will find their creations coming straight back at them and thus quickly come to a sticky end, thank

Goodness! In connection with this it is very comforting to perceive that the Heart and the Soul of the Keshe foundation is recognised in such people as the only 2 surviving Knowledge Seekers from the round table of 2 years ago Armen and Marko! This is truly the promised day from the Book of Job when the meek shall inherit the earth and grow old like a shock of Corn grows old in its time, and our progeny will be like the grass on the plains, or the grains of sand on the seashore in number and living in Peace.
