

The aim of 16-19 Mathematics has been to produce a course which, while challenging, is accessible and enjoyable to all students. The course develops ability and confidence in mathematics and its applications, together with an appreciation of how mathematical ideas help in the understanding of the world and society in which we live. This is an optional unit for both advanced and advanced supplementary further mathematics courses.

Un mar de cebollas / A Sea of Onions (Spanish Edition), South Yorkshires Transport (British Bus Heritage), Diagnostic Ultrastructural Pathology, Three Volume Set, Pigs (Farm Animals), Quantum Information for Babies (Physics for Babies Book 5), Configuration Management: The Changing Image/Intl Ed, Economic Development in the Nineteenth Century: France, Germany, Russia and the United States., Nonlinear Vibrations in Mechanical and Electrical Systems,
