

# My Journey - Three Levels of Healing: Feeling, healing and understanding Emotions

This is the second book in the trilogy and contains key mental and emotional insights and understandings that I've gained through three profound healing experiences that were the result of finally ending my denials of my Will, (intuition, feelings, emotions and knowing) that were activated by my Minds imprints, programs and beliefs. It covers numerous topics, in particular, those having to do with understanding and unlocking the power of the Divine Feminine aspect of our Being, our Will. It contains key insights into the nature of the human psyche that are vital in not only healing our Emotional Being, but also in unlocking the mystery of our Mind, how it works, and why it does what it does. It also addresses the illusion we presently call reality. What I share will be controversial as it goes against almost everything that our present denial based society believes to be the truth. Its my intent that as you read the insights and understandings I share, that when you come to reading my healing experiences near the end of the book, that you not only begin to put the pieces of the puzzle together, but also see how you can apply them to heal your issues and empower yourself. This book is yet another tool that will assist you in cutting years of trial and error off your healing journey.
