

The Black Mans Guide on How to Cheat on Your Woman

Cheating is wrong. This book is not an open pass for infidelity or fornication. It is truly a real life guide. Men are leaving the wife/girlfriend at home and going out in public with the woman on the side. Men are forgetting that women on the side are expendable pieces of recreation that should be used for temporary physical, mental or financial gain. The key word to that last sentence is temporary! Women on the side hold the same complicated value as a complicated video game. It s fun to play and it may involve some time but when it is all said and done, you can always turn the damn thing off and get back to real life. This book will teach you how to maintain your home life and how to play the streets. Women know we cheat! This is not some new profound thing. It s how you do it! There are rules to this game. After reading this book you will be a better cheater, well informed or a committed man! Please remember this one fact, I didn t create the game...Im just narrating it!
