

This complete trilogy of popular books tells the epic and fast-paced story of the future of humanity and the extraordinary benefits -- and profound dangers -- of powerful artificial intelligence..The series started in 2009 with Post-human, followed by its sequel, 2011s Trans-Human, and then leading to the prequel, published in the summer of 2012, Sub-Human. The trilogy can be read in the order of publication or in the chronological order of the entire epic story. The ebook is ordered according to the narrative, but reading it in the order of publication is its own, rewarding experience. Its all up to your preference..Wow! Reads like a action film in reeling off in your head! -By Joanna Daneman --Sub-Human Review(VINE VOICE) (TOP 10 REVIEWER) (HALL OF FAME REVIEWER)A Better Read Than Many of the Big Names in the Genre. -By Michael J. Crow --Sub-Human Review(VINE VOICE)Post-Human, a noteworthy sci-fi novel -Examiner.com --Post-Human ReviewA thought-provoking, energetic sci-fi book, with a robust dose of high-octane exploits. -A.F. Stewart, author of Chronicles of the Undead --Trans-Human Review.Readers have taken to calling this the Human Series, and why not? Its the story of humanitys future, both the possible bliss, the possible torment, and all of the in between. It might expand your view of what human really means, it might make you consider the pleasures and pains of immortality, and reflect on the extraordinary benefits and profound danger of strong A.I. All of this delivered in an epic series, paced faster than most novels, with twists and turns around almost every page, and a set of characters with whom youll fall in love.
