

Proceedings of the Seventh Marcel Grossman Meeting on General Relativity: On Recent Developments in Theoretical and Experimental General Relativity, ... and Relativistic Field Theories (Vol 1 & 2)

These two volumes of proceedings include chapters detailing: mathematics and foundations of general relativity; classical relativity; quantum and gravity; relativistic systems; and astrophysics.

The relation is specified by the Einstein field equations, a system of partial Although general relativity is not the only relativistic theory of gravity, it is the simplest theory . From this, one can deduce that spacetime is curved. ADA7 - Seventh Conference on Astronomical Data Analysis, held in Carg?se, Corsica, France, .
