

Secrets of Rebel Cave (A Stoneworth Teen Adventure Book 1)

Some of the long-hidden secrets of Rebel Cave slowly unraveled before the astonished eyes of six teenage spelunkers who dared probe its darkness in a caving adventure the day after Thanksgiving in 1945. Sixteen-year-old Dulcie Delaney and her almost-thirteen year-old brother, Jackie, from Kentucky, were visiting their two cousins near McMinnville, Tennessee. Two of the cousins, sixteen-year-old schoolmates, who had escaped from Nazi Germany just before WW II. During Thanksgiving Dinner, an old-timer revealed that as a youth, he once, during a storm, took shelter in Rebel Cave, a huge cavern on the mountain at the back of the family's nursery. He remembered seeing an abandoned old military wagon in the mouth of the cave. Local legend, he said, was that a local Confederate soldier was one of those who hid there. Had anyone been able to prove it? No, but perhaps they could! They grabbed the challenge and the quest was on. Spelunk they would! And much in the spirit of the Nancy Drew and Hardy Boy mysteries that had thrilled them, they blended their talents to create an effective though sometimes-bungling spelunker team. Together, they worked through fears, challenges, and dangers. Stretching the limits, they made startling discoveries. Their adventures connected them in surprising ways with what had happened there during the Civil War and opened the door to caving possibilities beyond their wildest dreams. With plans to come again the next day to follow up on what they had found, they happily but wearily trudged out of the cave into a November night cold, pouring rain. Little did they suspect that ahead were challenges far greater than they could have imagined. Overcoming them would demand total teamwork and all the skills they could muster. To bring realism to this novel, coauthor Philip Dale Smith drew from his

experience as a spelunker, his love of caving, and his long-time. fascination with the Civil War. He had two great-grandfathers who fought in the battle at Stones River, not far from Rebel Cave. Smith is noted in a number of books on caving including The Atlas of the Great Caves of the World, Exploring American Caves, Caves of Tennessee, and Cumberland Caverns. An early member of the National Speleological Society, his NSS number is 2420. Current new members are assigned numbers above 64,000. Smith says, To write a book about caves is a natural for us. I took my daughter-coauthor, Lisa Kay Hauser, underground for her first time as a preschooler. It was love at first sight for her and was, eventually, for her teen-age daughter and sons. And for her brother and others in our family. So the foundation was laid for this book and the others we hope will follow. Older elementary students and middle schoolers during my author visits often asked, Mr. Smith, when are you going to write something for us? Youve written for little kids (my six picture books) and for older people (Turn Back Time and Sunshine & Shadow) why not something for us? So, knowing that young people like adventure, exploring, lost treasures, etc, caving was an obvious choice for me to write about. Adding elements related to the Civil War and WW II provided a bonus, a way to intrigue readers about other facets of our nations history. Thus Secrets of Rebel Cave was born. Were thrilled that both youth and adults have received the print version so enthusiastically. I was delighted when a lady bought a copy for her 82 year old fathers birthday. He loved it! Readers of the authors best-selling and award-winning Turn Back Time, and Sunshine & Shadow became acquainted with Dulcie as a heart-winning 3-4 year old, and precocious Jackie as an infant and toddler.
