

# Mastering SEO: The Art and Science of Search Engine Optimisation

Search Engine Optimisation or SEO is the basis for increasing traffic to your website from Google. In this book, you'll discover techniques used by leading SEO professionals to boost website rankings, improve user engagement, and ultimately increase sales. Mastering SEO: The Art and Science of Search Engine Optimisation takes you through the whole process of developing and executing a successful SEO Strategy for your business, while explaining every step in detail. You'll learn about the best SEO tools to use to improve your website's performance, find out how to improve the way you approach content and make it more search engine friendly, and most importantly, how to measure the impact of the changes you make in order to boost performance further. Mastering SEO gives you a start to finish guide to SEO, and includes everything you need to build a strategy that will give you real results including detailed information about: How to perform effective keyword research How to develop an SEO Strategy for your business How to perform a full SEO audit of any website Writing high quality search engine friendly copy that sells How to get the most out of Google Analytics The best tools to manage your SEO activity By working your way through the processes outlined in Mastering SEO, you'll unlock the secrets to long term ranking success in Google and Bing, and improve your website performance using tried and tested SEO techniques that are in line with industry best practice. About the Author James Lowery has worked successfully in Search Engine Optimisation for more than a decade, leading one of the UK's largest agency teams and defining strategies for international brands along with smaller businesses. He is a regular speaker at industry conferences and a regular contributor to major SEO blogs.
