

True Magick Book One

There are so many books out there in different types of magick that it can be frustrating to know which one to pick. Many of them are specialized in only one type of magick such as Wicca, Druid, Ceremonial, Santeria, Voodoo and many others. I have done the research and let me tell you they are all correct but each lacking a piece of the other. The true energy worker is a person who is willing to study all forms of mysticism which includes the light and the dark, to have a complete understanding of what it is to channel the energy of the Universe and how to shape this energy into what he or she wills it to be shaped into. With this series of educational booklets I will help the reader discover his or her true self, battle his or her own personal deamons and come out the powerful energy worker that he is she was born to be. I have been where you are, searching to understand my true inner self. I have done so in the mundane by going to countless therapists and I have been initiated into several magickal societies which promises great power and which are all missing something. I have come out of these experiences with more questions than answers. You do not need to be part of a group to understand your true magickal potential, even though most groups will tell you that you do. I know this from true to life experience and can help you stop the search for within you are all the answers you are searching for. Along with this booklet you will be able to get my personal email address where you can ask questions to help you along your training process. You are not alone; I am here with you every step of the way. The journey might not always be easy and the results might sometimes take longer than expected but I can promises results will come to those willing to put the work in. And what great results they will be.
