

## Birds in Your Backyard (Sharing Nature With Children Book)

Watching birds can be easy and lots of fun. With plentiful illustrations and simple text, this book is especially designed to kindle the spark of interest in birds for children ages 4 to 10. The young person in your life will learn how to attract birds and identify common backyard birds. There is also lots of age-appropriate information, such as the distinctive behaviors of different species, how to make a nest box, official state and provincial birds in the U.S. and Canada, and much more.
