This guide gives users swifter access and wider coverage of the proven strategies, techniques, and insights of the fields leading lights: Jo-Von Tucker on catalogue marketing; Lee Epstein on postal regulation; Stan Fenvessey on fulfillment planning; and Joan Throckmorton on creative methods, to name just a few. The Direct Marketing Handbook is a detailed treatment of every important DM process: planning, creative, media, budgeting, production, and final execution and applications. It reveals trade tricks such as devising marketing plans, mailing-list selection, fulfillment, choosing alternative media and response devices. And it explores a host of new topics, such as database compilation and applications, to see what works, what doesn't, and why in this field. Here is a hands-on desk reference that ad managers, marketing directors, product managers, and company executives can consult with confidence to solve problems and meet their objectives.
